Sequoia Lighting Participates in Chino City Hall Project

The City of Chino has recently completed updating the greenbelt and common areas located on its City Hall campus. The updates included extensive renovations to the existing landscaping and the installation of new outdoor lighting.

Chino City officials specified custom designed nostalgic post top luminaires and matching bollards from the Sequoia Lighting Corporation for use in this project. After extensive research by Sequoia's design and engineering staff, a unique and classically styled design motif was selected for the fixtures. Future outdoor lighting projects will also incorporate the new style which is now specified as the new "city standard".

With the renovation complete, the grounds at Chino's City Hall are now beautifully landscaped and well lighted. The improvements will make events such as summer concerts and city sponsored festivals much more pleasant for all wishing to attend.

Other cities located throughout the state of California have specified products from Sequoia Lighting for use in their outdoor lighting projects. Among the most recent include The City of Los Angeles, The City of Glendale, The City of Beverly Hills, The City of Santa Barbara, The City of Pasadena and The City of Newport Beach.

For more detailed information on the complete line of Sequoia Lighting products, call 877/888-7880 or visit Sequoia Lighting's web site at sequoialighting.com.
