Sequoia Lighting Products travels to Hawaii

La Habra, CA - Sequoia Lighting Corporation, manufacturers of quality lighting products, recently installed a variety of area lighting products in the newly renovated Lahaina Center Mall located on the Hawaiian Island of Maui.

The quaint seaside village of Lahaina is steeped in nautical history. Originally settled as a whaling outpost, the city's governing agencies have retained Lahaina's nautical ambience by establishing well-defined architectural guidelines for all development projects.

In keeping with the city's planning department's request, The Lahaina Center's master plan specified numerous custom-designed area lighting products, which would blend in with the existing nautical streetscapes. Sequoia's engineering staff created several unique designs that fulfilled the project's requirements. The custom designed products included bases, arms, lighting poles and luminaires.

On the West Coast, numerous cities and government agencies located throughout the state of California have specified Sequoia Lighting's products for use in their projects. Among the most recent include The City of Los Angeles, The City of Fullerton, The City of Beverly Hills, The City of Santa Barbara, The City of Newport Beach, The City of Glendale and the State of California.

In addition to custom manufactured products, Sequoia Lighting offers numerous off the shelf products, which includes a complete line of Contemporary and Nostalgia Street Lighting products and HID Lighting Systems.

For more information on Sequoia Lighting's products, call 877/888-7880 or visit Sequoia Lighting's web site at www.sequoialighting.com
