Sequoia Lighting Corporation: Specializing in Outdoor Lighting Solutions

For a number of years, cities across the nation have focused their energies on restoring their historical neighborhoods and downtown districts. Through the combined efforts of city personnel and companies like Sequoia Lighting Corporation, areas in cities that were once neglected have been transformed into chic, urban destinations while beautiful neighborhoods have seen their streetscapes enhanced by the installation of thoughtfully designed street lighting products.

The Sequoia Lighting Corporation specializes in producing extensive line on custom and off the shelf lighting products. Their street lighting products range in style from Contemporary to Nostalgia and are designed to blend in with a wide range of architectural themes.

Numerous cities and government agencies located throughout the nation and the state of California have specified Sequoia Lighting's products for use in their redevelopment projects. Among the most recent include the cities of New York, Las Vegas, Seattle, Los Angeles, San Diego, Beverly Hills and Santa Barbara, to name just a few.

Sequoia Lighting's talented staff plays a key role in the success of the redevelopment projects. Its product designers, engineers and manufacturing personnel have well over eighty years of experience in the lighting industry.

As President of the Sequoia Lighting Corporation, Mr. Mitchell Klasna handles Business Development and Marketing. Structuring distribution networks, managing outside sales and leading new product development are a few of the many tasks performed by Mr. Klasna. His experience in the lighting industry spans over twenty-five years.

Mr. Steve Klasna serves as the company's Vice-president. As a graduate of UCLA, Mr. Klasna manages Sequoia's business interests and oversees the company's product design and manufacturing output. His experience in the lighting industry exceeds thirty years.

In order to facilitate its continued growth, Sequoia Lighting has expanded its manufacturing facilities by acquiring a California based metal fabrication company. M12 Engineering now serves as Sequoia's Lighting's precision metal fabricating division.

Jesus Ramirez heads up M12 Engineering. His experience in the metal fabrication industry exceeds over fifteen years. In that time, he has held positions in production and management.

Aided by its talented staff of lighting professionals, the Sequoia Lighting Corporation produces high quality lighting products that will deliver years of trouble free service.

For more detailed information on the complete line of Sequoia Lighting products, call 877/888-7880 or visit Sequoia Lighting's web site at sequoialighting.com.
