Undertruck Lighting from Sequoia Lighting

La Habra, CA - Sequoia Lighting Corporation, manufacturers of quality lighting products, has expanded its product line to include Undertruck Lighting fixtures.

The Undertruck Lights are an excellent source for illuminating truck undercarriages. The fixtures accommodate T12-96 high output fluorescent lamps for a bright, even lighting source.

All Undertruck Lights feature 1" thick clear polycarbonate lens assemblies with airtight optical chambers to ensure protection from unwanted moisture and fluids.

Constructed of heavy duty extruded aluminum, the Undertruck Lighting fixtures come in a standard 10' length. Custom sizes are also available. The fixtures universal rectangular shape allows for easy installation into concrete floor bays.

The Undertruck Lights feature flat surface areas designed to flush mount onto existing floors. The flat surface area allows inspection carts and similar equipment unobstructed movement across the light fixtures entire surface area.

In addition to offering Undertruck Lighting, Sequoia Lighting Corporation provides customers with the design, fabrication and installation of quality street lighting products, roadway products and HID Lighting Systems.
