Watt Development Selects Sequoia Lighting

Watt Development of Santa Monica has specified Sequoia Lighting's outdoor lighting products for installation in several of its new residential developments. Watt Development is an industry leader in the construction of new home communities in the southwestern United States.

The Sequoia Lighting Corporation is supplying Watt Development with a variety of off the shelf and custom designed area lighting and street lighting products. The lighting fixture will be installed at residential streets, community centers and recreational areas.

Sequoia Lighting will furnish Watt Development with nostalgic and contemporary outdoor lighting products designed to blend in with a variety of architectural themes. The new lighting products include sconces, post tops, pendant luminaires and decorative poles and bases.

In addition to the design, fabrication and installation of the lighting products, Sequoia Lightings engineering staff has provided outdoor lighting layouts and photometric studies for select residential projects.

Other real estate development companies have utilized Sequoia Lighting's products and services including Concordia Development and Montage Development, to name just a few.

For detailed information on the complete line of Sequoia Lighting products and its consulting services, call 877/888-7880 or visit Sequoia Lighting's web site at sequoialighting.com.
