POLE BASE DATA

OCTAGONAL BASE

(4) 3/4" ANCHOR BOLTS ON A 12" DIA. BOLT CIRCLE

SPECIFICATIONS

Lighting standards shall be all one piece cast aluminum massively tapered with an octagonal design and a decorative base construction. All aluminum alloys shall comply with metallurgical and mechanical properties set forth in the Aluminum Association Standards.

SHAFT

Each shaft shall be heavy wall copper free, cast aluminum produced from ASTM 356.1 ingot per ASTM B179- 95 or ASTM B2695. The castings shall be true to the pattern with complete detail. Located in the decorative base of the standard is a large handhole door opening with cover for easy wiring access and fusing.

ANCHOR BOLTS

Furnished with each standard are four hot dipped galvanized anchor bolts, each with double nuts and double flat washers. Each anchor bolt assembly is provided with a 4" tail. Anchor bolt settings are provided to the customer with each shipment.

FINISH

Each lighting standard is cleaned, etched and primed prior to the painting process. Standard colors are black, green, bronze or verde patina. All paint is applied by either powder coat or wet spray process. Custom colors and finishes are also available.
