NOSTALGIA

DESIGN
PBN931

NOSTALGIA LED PEDESTRIAN CROSSING SIGN

SPECIFICATIONS

Lighting standards shall be all aluminum with decorative base construction. All aluminum alloys shall comply with metallurgical and mechanical properties set forth in the Aluminum Association Standards. Each pole is straight fluted with smooth upper section smooth.

SHAFT

The shaft is extruded from ASTM 6061 aluminum alloy tubing. Each pole is fluted with straight upper section on a cast aluminum decorative base. Located in the decorative base of the standard is a large handhole door opening with cover for easy wiring access and fusing.

ANCHOR BOLTS

Furnished with each standard are four hot dipped galvanized anchor bolts, each with double nuts and double flat washers. Each anchor bolt assembly is provided with a 4" tail. Anchor bolt settings are provided to the customer with each shipment.

FINISH

Each lighting standard is cleaned, etched and primed prior to the painting process. Standard colors are black, green, bronze or verde patina. All paint is applied by either powder coat or wet spray process. Custom colors and finishes are also available.
